

Anti Slavery Statement

Project Design Engineers Ltd (PDE) is a well-established premier Engineering, Design and Project Management Consultancy, with a highly regarded reputation for demonstrating expertise and consistent attention to detail across a wide range of projects and locations. PDE's multi-discipline project capability is supported fully by industry standard CAD and CAE systems, enabling PDE to provide a comprehensive engineering service from concept through to completion.

Section 54 of the Modern Slavery Act 2015 requires commercial organisations carrying out business in the UK, with a turnover of at least £36 million, to prepare and publish a slavery and human trafficking statement for each and every financial year. PDE does not fall under these requirements but are committed to upholding the principal of ethical business practices and the implementation of practices to combat modern slavery.

PDE operates a preferred supplier database and conducts due diligence on all suppliers before allowing them to become an approved contractor.

- As part of our contractor assessment we acknowledge our support of the Modern Slavery Act 2015 and compliance thereof.
- We will only trade with those who have appropriate controls in place to comply with the Act and may terminate the contract at any time, should any instances of slavery and human trafficking become apparent.

Our supply chain includes companies supplying raw materials, supply & fix contracts and professional services across the portfolio of projects we deliver for our clients.

PDE is committed to maintaining and improving systems & processes to avoid complicity in human rights violations related to our own operations and those of our supply chain.

We believe that working in partnership with our clients, community stakeholders and supply chain in a sustainable way enables us to find more practical and safer methods of ethical trading free from slavery and human trafficking.
